Keys Marked With An Asterisk * Are Available in Nickel Silver Only

All Other Keys Shipped Standard in Brass Are Also Available in Nickel Silver For An Additional Charge

GET YOUR COMPANY NAME ON YOUR KEYS!

THE PERSONALIZED K3 SECURITY BOW is available in over 500 commercial keyways in your choice of brass or nickel-silver unless otherwise indicated. It is an inexpensive and highly effective way of keeping your name in front of your clients and assuring their return business. The K3 Security Bow offers your clients the added security of having a key that cannot be easily duplicated while its headshape gives your clients added protection against unauthorized duplication. You have your choice of three popular styles...

- STANDARD INCISING utilizes standard block lettering for your company name and phone number or other special message. You may also include one of our attractive special backgrounds for your message.
- CUSTOM INCISING includes your own custom logo and fonts.
- EMBOSSED is by far the most attractive personalized key blank money can buy! This style includes your own custom logo and font.

  * The difference between incising and embossing is that incising has the effect of being engraved into the key, while embossing has the effect of raised lettering. All styles are available with the optional "Do Not Duplicate" message on the reverse side at no additional cost.
